

# SOUND ENGINEERS MONITORING SPEAKER UNIT

for remote verification of any Amplifier's Sound Output  
making it perfect for any size Amplifier

Products Proudly

## A 1RU MONO / STEREO CONFIDENCE SPEAKER UNIT

## That Fits any 19" Equipment Rack

### OVERVIEW

Any Amplifier can be connected to this Speaker Unit to Monitor\* its Output. Connection to the Speaker unit include Neutrik SpeakerON®, 1/4" Jack, or RCA Connectors. The unit has a total of 8 Speakers (2 Banks of 4) allowing the unit to be outputted either in Mono or Stereo using the Mono/Stereo Selector Switch. This makes the Unit perfect for any 19" Equipment Rack, Machine Room, Security Surveillance, Outside Broadcast Vans, Editing Monitoring, and Theme Parks where its diminutive 1 RU RackSpace size is a necessary requirement.

### HANDLES ANY SIZE AMPLIFIER-EVEN MULTIPLE AMPLIFIERS

*As each Amplifier's Impedance Output can vary, the Front Speaker Impedance Switch can be changed to match the Amplifier being monitored for the best Sound possible from the Speaker Unit.*

### BUILT IN SPEAKER PROTECTION

To further protect the Speakers when using High Power Amplifiers, the specially designed circuit provides complete protection against "Speaker Burn out".

*Any Amplifier, even as large as 2000 watts can be connected without any detrimental effect to the Speaker Unit.*

### MULTIPLE CONNECTIONS & MONO / STEREO OPTION

Connection options include, Neutrik Stereo Speakon®, 1/4" Jack and RCA Connectors, with a Slide Switch for Mono or Stereo Operation.

### MOBILE USE

Made of Aluminum with a weight of less than 3.3 lbs it is particularly suitable for all Mobile applications where its light weight and small size are much sought after features.

### ACCOUSTICALLY DESIGNED SOUND CHAMBER

Using eight **Patented High Efficient Speakers**, allows us to concentrate on providing the most desirable features of a Studio Quality Audio Monitor in a cost effective space saving design.

### SPECIFICATIONS

(8) 4 Ohm High Efficiency Speakers  
Frequency: 140-20k Hz  
Sensitivity (1W at.3m): 85 +- 3 dB

### WEIGHT & DIMENSIONS:

Weight: 3.3 lbs  
1.75" High (1 RU), 19" Wide, 6" Deep
