

**CEILING PANEL KIT
FOR USE WITH THE
NIGEL B PLENUM EQUIPMENT BOX**

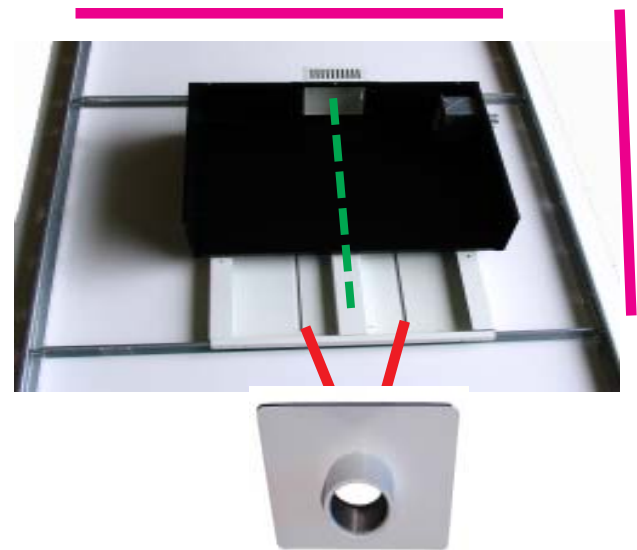

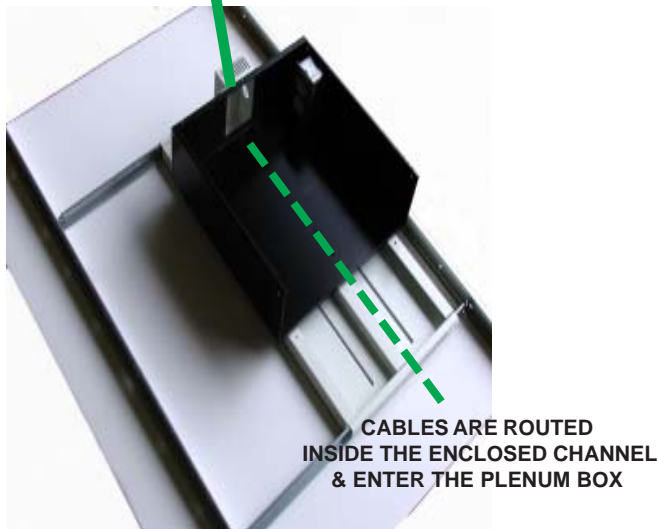

PLENUM RATED

Meets NEC and State Building Codes when used with the Nigel B Design Plenum Equipment Box (As all wiring and the AC Receptacle is enclosed)

The Ceiling Panel and the Plenum Box are made of Light weight Aluminum . The Ceiling Panel is first hung using our UL Listed 100 lbs supplied Hanging kit. The modified Plenum Equipment Box is then mounted on top and attached to the suspended Hanging Panel.

CEILING PANEL CAN BE POSITIONED LEFT OR RIGHT OR REVERSED PROVIDING MULTIPLE PROJECTOR POSITIONING

PROJECTOR MOUNTING PLATE

This provides a tight installation to the Ceiling Tile Dual Tracks allow the Projector Mounting Plate to slide along the underside of the track for an almost variable positioning of the Projector
(See next Page)

POSITIONING THE CEILING PANEL

The Ceiling Panel is hung using the supplied 100lbs UL rated Hanging kit. With a total weight of only 14lbs the Installer has 84lbs for the Projector and any equipment that needs to be fitted inside the Plenum Equipment Box.

KNOCK OUTS

The Ceiling Panel can be reversed, and also moved from left to right, so the Installer can position the Projector in many different positions

**UNDERSIDE
(Room View)**

KNOCK OUTS ON THE CEILING PANEL PROVIDES *10 DIFFERENT POSITIONS ALLOWING THE PROJECTOR TO BE POSITIONED TO SUIT THE USERS REQUIREMENTS

*** CEILING PANEL CAN BE REVERSED**

Cables & Wiring routed through the Projector's Pole & Plate

THE SUPPLIED PROJECTOR MOUNTING PLATE

Attaches to the Ceiling Panel using (4) Bolts and Nuts allowing the Plate to slide along the (2) channels and provide for any cables or wiring to be routed directly to the Plenum Equipment Box.
