

INFOCOMM 08 BOOTH # C 4536 NIGEL B DESIGN

Products shown and Demonstrated

Productively

45 Watt 4 Ohm

45 Watt Plus Series with RS 232

45 Watt 70 Volt Dual Zone

45 Watt Plus Series 70 Volt with RS 232

Miniature **45 Watt** Amplifiers with the largest number of configurations. 70 Volt dual Zone ,70 Volt with RS 232 Interface, Plus Series with RS 232 Interface and Plus Series 70 Volt with RS 232 and our popular 45 Watt 4 Ohm Unit.

All our Amplifiers save considerable Energy. In fact over 90% Energy Savings are achieved, making them perfect where Energy Efficiency is required. Made in the USA to exacting Standards, all our Amplifiers are Individually tested and carry a THREE Years Warranty.

MULTIZONE 45 WATT AMPLIFIERS & PAGER / MIXER

Providing Emergency Paging over the Entire System, and Individual Zone Control over an unlimited number of Zones

A “No Home Run” MultiZone System that is “Daisy Chained”, eliminating the necessity of running each zone,back to the source resulting in a huge Cost Saving over any other System. Even using a Simple AMX NI700 or Crestron QM-RMC Controller up to 62 Zones can be Created. Each addition Port provides a further 31 Zones using the RS 485 protocol, making it a Cost Effective Solution for Educational, Stores, and Offices. Each Zone can be individually Controlled with Global Override Paging. The Pager/Mixer, in addition to having 2 Microphone Inputs also allows Multiple Audio Inputs in either the Paging Mode or Mixer Mode.

PLENUM EQUIPMENT BOXES

Plenum Box to Ceiling Kit

2RU Rack Mount Plenum Box

14" X 14" x 5.75 high Plenum Rated Plenum Equipment Boxes are perfect for all above the Ceiling Installations, and are available in both Pole Mount and Hanging Versions. Our new Plenum Box to Ceiling Tile Kit , allows all the Equipment to be Installed in the Box to provide a flexible Mounting Position for the Projector. See also our new **2RU Rack Mount Plenum Box**.

POLE MOUNT PLATFORM With Hidden Cable System

This 10" x 10" Platform, with its Built In 3 Outlet Power Panel, is perfect for all our Amplifiers and Controllers from AMX, Crestron, Aurora etc. and is Simple to Install. What also makes this unit useful, is that it can be used for many other Applications. Best of all is that all wiring runs **INSIDE** the Pole eliminating unsightly Cables and Tie Wraps.

THE LIMPET -ELECTRONIC PROTECTION OF ANY EQUIPMENT

Nine year Battery Life in use, far longer than any other device *

The Limpet will detect thieves when they try to steal your Projector, Flat Screen Monitors, in fact any Equipment. In addition to its 117 dB built In Siren it can also interface with any AMX/ Crestron Controller or a Central Alarm System using it Built-In NO or NC Contact Closure Connections for Instant reporting.

* Our Lithium Iron Battery should outlast any Alkaline Battery by a factor of 4
